- 2. Install Blue Estate the Game and launch it. For the moment, use your mouse to navigate through the menu.
- 3. Choose the "SETTINGS" option on the first menu.

4. Then choose "CONTROLS"

5. In the CONTROLS menu, tick YES in the "gesture with the mouse" box.

6. Then tick YES in the "Mouse in RAW Mode" box.

7. Your LightGun should be functional and work with Blue Estate the Game

In Game:

- 1. The trigger is used to shoot
- 2. A simple click on the secondary button allows reloading your weapon, or going into cover.
- 3. Double click on the secondary button to switch weapon.
- 4. You can also point your LightGun down (outside the screen) to reload and cover.
- 5. To make a gesture, quickly point your device on the border of the screen the arrow is pointing at.
